iQPC912sk
PAVER SKATE

The world’s first dry-cut power cutter with integrated dust control. Now that’s smart.

Eliminating dust from your job site is smart: it saves time, it saves money, it saves lives.

A Smart, Tough Power Tool.
Designed by contractors, built to last.

If you’re cutting concrete or masonry, you know the problems that dust creates on your job site. As contractors for over 30 years, we realized dust was costing our business time and money, and threatening the health and safety of our workers.

Today we build smart, tough power tools that eliminate the dust problem. Our award winning products are the world’s first dry-cut masonry saws with integrated dust control. Built for contractors, by contractors.

With the iQPC912sk™ Paver Skate, you don’t have to pay workers to clean up dust every day. Your workers don’t have to walk back and forth from the saw to their work area. You don’t have to cut wet and you don’t have to worry about dust exposure on your job site.

No Dust. No Water. No Problem.
